Profile

I am passionate about programming and software engineering and looking for a part-time where I can utilize my skills and experience gained at MIT to push myself to new heights.

Experience

📅 02/2022 – PRESENT

Database Application Development Manukau Institute of Technology

I worked on the front end and back end in a team of 2. Used remote SQL database with windows presentation foundation responsive front end. Worked with various Microsoft technologies such as Linq, Entity framework, ADO.NET, WPF, SQL Server etc.

📅 08/2020 – 11/2021

UX/UI Project Manukau Institute of Technology

I Designed and developed an Android app practising UX/UI best practices. The app is about web movies. App has multi-threading and recycle view implemented in back end java code for better performance and memory efficiency.

📅 08/2020 – 11/2021

Front End Web Development Manukau Institute of Technology

I applied HTML, CSS, Javascript to make 6 pages responsive static website and deployed it using Microsoft Azure.
